“A sincere thank you to the crew who worked on our basement this spring! I have never seen such a hard-working bunch of really terrific guys – who not only worked long, hard hours, but were courteous and pleasant at all times. We have, and will, recommend CRC without hesitation.”

“After our very wet spring thaw, I had quite a bit of dampness / wetness in my basement. After getting estimates (in the thousands of dollars) I called CRC for another estimate to ‘fix’ my basement. The salesperson gave me some suggestions regarding grading, extending downspouts, and caulking between the house and patio – all things I could easily do for a lot less money...thus far, I’ve had no problems. I would like to thank CRC for coming to my aid.”

- D. Baltrukenas

“What began as a trying ordeal ended as a pleasant and satisfying experience thanks to Concrete Raising. We had dealt with 5 other contractors before choosing Concrete Raising. When CRC performed the inspection, we saw for ourselves that the inside drain tile was working fine. The workers were thorough...including sweeping the street and offering to mop our kitchen floor...They gave us the impression that no task was too great to please us. We would recommend CRC to anyone who wants peace of mind before, during and after a basement repair.”

- A. Rich

“What a wonderful job you did in my basement. The crew sure knows their job and how to work together. I don't think in my life that I have seen men working harder and clean up after a job was done like your crew. I am so happy and grateful.”
