

CRC Concrete Raising of America
Concrete Raising / Leveling / Stabilizing

References / Testimonials

“I am so happy with the job you did. The estimate was super prompt, the job was done on my tight schedule, and the outcome is just perfect! Thanks so much!”

- D. Wegner

“I am extremely pleased with the quality of work that your crew did, as well as the clean-up they did when they were finished. My walk is now level and back to its original height and the surrounding area shows no sign that the workers were even here. My hat is off to you and your crew.”

- R. Ihlenfeld, MS, RPh

“I just wanted to compliment CRC and especially the crew that performed the slabraising on my garage floor. Your crew was courteous, professional, and efficient. I work with many contractors in my job with an engineering firm, and with my house. Contractors are a dime a dozen, but good contractors are very rare. The settling problem with my garage floor was corrected, the floor looks and functions better, and my garage was cleaner when your crew left than when they came. I really appreciate the level of service your company and crew provided.”

- S. Hildebrandt

“The sidewalk looks great...blocks very even. Your guys did a wonderful job.”

- G. Lipsky

“I’ve had a number of things done by contractors and this is the first time the job was done correctly right off the bat instead of having to come back and make things right...I can only say I was so pleased I wish I had more work to send your way. Thank you!”

- C. Blank

“Thank you very much for a wonderful job done on our patio and front walkway. We will highly recommend you to others!”

- D & S Neis

“CRC are honest and dependable people. They do not pressure you to do anything. They give you several options on what to do and they will advise you what they think should be done. They’re all super people in working and in cleaning up. I would recommend them to anyone.”

- M. Salio

“Your precision drill team arrived and finished, leaving my driveway as well as the street completely clean. The driveway, garage and walkway were aligned, elevated, leveled and set...After seventy-two hours of cure time, (the CRC slurry) was hard, durable concrete – the expected result is a long-term, more likely, permanent fix. Your product is very different from the soil of loam and sand that was used here five previous times.”

- C. Klein, M.E.

“I just thought I would drop you a note to indicate how impressed I was with the hustle that your employees showed in mudjacking a few of our concrete slabs at the treatment plant. It is rare these days to see people hustle the way your employees did on that project. Not only were we impressed with their work effort, but also the end results.”

- J. Nemke (Engineer)

“Thank you for the excellent service and job performance of raising the concrete floor at our credit union. It is not very often when a contractor will work around the client’s schedule – yet you allowed us to carry on our office hours without any inconvenience to the office staff or our credit union members – even though that meant your crew would first begin their work at 7:00 p.m...We also observed the immaculate condition you keep your equipment – your professional ‘state-of-the-art’ image of your company through the letterhead, video, and all other supporting documents. It was a pleasure to have done business with your company. Thank you for a very fine job!!!”

- K. Sommer, Credit Union President

“They took the time...so no one would trip and fall (possibly causing me a law suit). It is sure nice to know that someone is still in business to truly please the customer.”

- L. Straw

“We are very pleased with the mudjacking your company did on our sidewalk. The work you did, in our opinion, is perfect.”

- W & H Nagel

“CRC’s crew members were neat, well-mannered, hard-working, professional cement raisers. The job they did on the two cement stoops and the sidewalks at my home far exceeded my expectations. Thanks to CRC for performing a service that is neat and top-quality from start to clean-up, and very reasonable in price.”

- E. Bronson

“Thank you for the excellent work – the front walk looks wonderful for the first time in years!”

- W. Scheckler, MD
